GATE REMOTE FOR SWING GATES GTR099/GTR058

GTR054

Compatible with the following Richmond motors.		
Sliding / Cantilever Motors		
GTR156 & GTR212 !	GTR061 & GTR207 !	
Swing Motors		
GTR099 ✓	GTR058 ✓	GTR062 & GTR078 ✓
GTR500 & GTR501 !	GTR502 & GTR503 !	

TECHNICAL SPECIFICATION

Frequency:	433.92MHz
Batteries:	2 x AA Batteries

The GTR054 Gate Remote:

The GTR054 Gate Remote is compatible with the Richmond Rolling Solutions swing gate kits: GTR099 (Single swing) and GTR058 (Double Swing) and their DC/solar powered gate kit equivalents: GTR078 (Single Swing) and GTR062 (Double Swing).

Each **GTR054 Gate Remote** features 4 x buttons – **A**, **B**, **C** and **D**. A single **GTR054 Gate Remote** can be paired to and used to operate up to 4 x individual sets of Richmond Rolling Solutions swing gates if needed (one swing gate kit to each button).

A GTR054 Gate Remote cannot be paired <u>directly</u> to any of the Richmond Rolling Solutions Sliding Gate Motors (see "The GTR054 Gate Remote & The GTR197 Remote External Receiver: Pairing a Richmond Rolling Solutions Sliding Gate Motor to a GTR054 Gate Remote).

As standard, each newly purchased compatible Richmond Rolling Solutions swing gate kit comes with 2 x pre-paired **GTR054 Gate Remotes**. Any additional **GTR054 Gate Remotes** purchased will require pairing to the swing gate's PC Board located in the unit's control box.

Pairing Additional GTR054 Gate Remotes to Your Swing Gate Automation Kit:

If you have a requirement to pair additional GTR054 Gate Remotes to your Richmond Rolling Solutions Swing Gate Automation Kit, please consult the **Swing Gate Automation Kit User Manual** that came with your specific gate automation kit. Below are web page links to the four applicable **Swing Gate Automation Kit User Manuals**:

GTR099 - Single Swing Gate Automation Kit:
https://www.richmondau.com/wp-content/uploads/2022/11/GTR099-swing-gate-instruction-manual-REV23.pdf

GTR058 – Double Swing Gate Automation Kit:
https://www.richmondau.com/wp-content/uploads/2022/11/GTR058-instruction-manual-REV23-1.pdf

GTR078 & GTR062 – Single & Double DC/Solar Swing Gate Automation Kits:
https://www.richmondau.com/wp-content/uploads/2021/12/SOLAR-SWING-GATE-INSTALLATION-MANUAL.pdf

Please note: Each compatible Richmond Rolling Solutions swing gate kit does have a maximum limit for the number of GTR054 gate remotes that can be paired directly to it:

GTR099 – Single Swing Gate Automation Kit:	10 x GTR054 Gate Remotes
GTR058 – Double Swing Gate Automation Kit:	10 x GTR054 Gate Remotes
GTR078 – DC/Solar Single Swing Gate Automation Kit:	10 x GTR054 Gate Remotes
GTR062 - DC/Solar Double Swing Gate Automation Kit:	10 x GTR054 Gate Remotes

The GTR054 Gate Remote & The GTR197 Remote External Receiver:

Pairing More Than 10 x GTR054 Gate Remotes to Your Swing Gate Automation Kit:

If you have a requirement for additional remotes beyond the maximum allowable 10, you can purchase a Richmond Rolling Solutions optional accessory called the **GTR197 Remote External Receiver**. The GTR197 has the capacity to pair up to 250 x additional **GTR054 Gate Remotes**.

Pairing a Richmond Rolling Solutions Sliding Gate Motor to a GTR054 Gate Remote:

If you have a sliding gate fitted with a Richmond Rolling Solutions Sliding Gate Motor on your property as well as a swing gate fitted with a Richmond Rolling Solutions Swing Gate Kit and you want to reduce the number of gate remotes that you are using to operate both gates, you can pair the sliding gate motor to the **GTR054 Gate Remote** by utilising a **GTR197 Remote External Receiver**.

You can pair the **GTR054 Gate Remote** to the **GTR197 Remote External Receiver** utilising any of the 4 x buttons on the gate remote (**A**, **B**, **C** or **D**) that **<u>have not</u>** already been utilised for another gate motor or external receiver.

For additional information on the **GTR197 Remote External Receiver**, visit:
