TECHNICAL SPECIFICATION

Dimensions:	See included diagram
Voltage:	24V
Cable Length:	6m (fitted with 5 pin compatible plug)
IP Rating:	IP44
Manual Release Key:	Included

The GTR172 Replacement Swing Arm for Richmond Swing Gate Automation Kits:

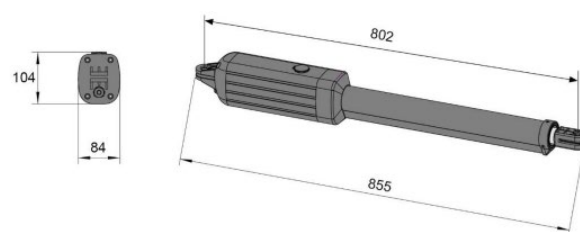

The **GTR172 Replacement Swing Arm** is a one-for-one fully compatible replacement for any damaged or broken swing gate actuators from the following Richmond Rolling Solutions swing gate kits: **GTR099** (Single swing) and **GTR058** (Double Swing) and their DC/solar powered gate kit equivalents: **GTR078** (Single Swing) and **GTR062** (Double Swing).

Each GTR172 **Replacement Swing Arm** comes complete with pre-installed Limit Switches, 1 x Manual Release Key and a 6m cable (fitted with a 5 pin male plug).

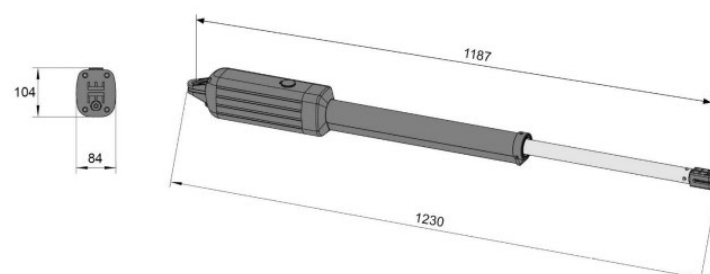

****Some adjustment of the Limit Switches and the 6m cable on a new GTR172 Replacement Swing Arm may be required to match the physical setup and performance of a pre-existing swing gate installation****
